REQUEST FOR CERTIFICATE OF CORRECTION PURSUANT TO 37 CFR 1.322

Dear Sirs:

Patentees respectfully request a Certificate of Correction to be issued for the above-identified U.S. Patent correcting the patent as noted in the attached "Certificate of Correction" Form PTO/SB/44.

The error now sought to be corrected is an error which incurred through the fault of the U.S. Patent and Trademark Office. The correction does not involve such changes in the patent as would constitute new matter or would require reexamination.

Applicants enclose herewith a copy of a "Request For Corrected Filing Receipt Under 37 C.F.R. §1.181," filed August 26, 2003, and a "Corrected Filing Receipt,"

12 JAN 2005

dated June 28, 2004, as evidence to show that the error is attributable solely to the Office. The filing receipt dated February 14, 2003, incorrectly recited the title as "Liquid Crystal Display, Liquid Crystal Device and Liquid Crystal Display System." The Corrected Filing Receipt shows the corrected title, which reads "Liquid Crystal Display Apparatus, Liquid Crystal Device and Liquid Crystal Display System." Therefore, the title on the issued patent is clearly an error by the U.S. Patent and Trademark Office. Applicants respectfully request expedited issuance of Certificate of Correction.

The error set forth in the proposed Certificate of Correction was the fault of the USPTO. Accordingly, no fee is required. However, the Commissioner is hereby authorized to charge any fees associated with this communication to Deposit Account No. 19-3140.

Respectfully submitted,

Dated: December 21, 2004

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
